

**AM.I** stands for unapologetically losing yourself in that moment where music explodes into an array of colour and feel. Whilst writing and composing her own typical melodic sound, **AM.I** enters a world that is entirely her own.

Since 2020 she has been adding some new challenges to her performance. Using the Pioneer Toraiz SP-16 sampler, she's been able to bring more power & drive to her sets.

With releases on the Berlin based **Ballroom Records**, **Set About & Kuukou Records** and **Tragedie**, she's been on a successful path discovering some new sounds in the Techno scene.

Gigs on **Tomorrowland**, **EGG London**, **Secret Cinema's GEM FM**, **ADE**, **Club Birgit Berlin** and many more... have been putting her on promoters' radar. She allows everybody who's looking for a magical night to enter said world.
