

Biography Mehr is Mehr

Since 2013 Rosalie and Vera are creating different parts of their lives together. With „Mehr is Mehr“ a big desire comes true – the desire to play music together and help shaping cultural places.

As partners in crime they found their own special rhythm and travelled together to diverse clubs all over Europe and through the endless landscape of techno festivals.

Even if both of them are not really the biggest fans of categories you can describe their style with the following words: techno with floating baselines and a never ceasing mischievous smile.

If you have ever seen them behind the decks you know the name is program: „Mehr is Mehr“ stands for more heart-melting emotions, bumping endorphines and the trust that the good will prevail in the end.

Their first release was 2020 on Ballroom records and they are working on more of it.

Since summer 2021 they have a residency at „Station Endlos“.
